How to register in OSCAR or GAWSYS

1. check if you are included in the list of available contacts

The screenshot shows the 'City Analysis view Tool' interface. At the top, there is a search bar with the text 'Test contact' entered. Below the search bar, there are two dropdown menus. The first dropdown, titled 'Search for Station', lists 'Desert Rock (NV)', 'Test station', 'San Andrés', and 'Otway'. The second dropdown, titled 'Search for Contacts', lists 'Test Contact'. Red circles and arrows highlight the search bar and the 'Test Contact' option in the second dropdown.

On the «free text search» field type your name

As soon as your name appears select it to view your contact details

Contact Test

Federal Office of Meteorology and Climatology MeteoSwiss

Address: Zurich
Switzerland

Phone:

Fax:

E-mail:

Additional e-mail:

Contact URL:

Program functions:

User role(s):

Station contact for:

contact@test.com

Test station

Check if your email is correct

If your name **does NOT** appear in the search results ask your national focal point to add you in the list of contacts (personal info needed: first name, last name, email, organization, city, country). A compatriot colleague already registered in the application can also add you as contact. As soon as you are included in the contacts list you will receive a confirmation email with a link to the application URL.

If your name is included you can continue with the following registration procedure.

4. Request access to the application (this is not an error message!)

Access not possible

You do not have the access rights for this application. This can be due to the following reasons:

1. This is the first time you want to access this application. Please click the "Request access" button and follow the directions.
2. If you already requested access to this application, the following steps might help:
 - wait until you receive the e-mail that confirms you have access.
 - click the "New login" button and select a different login method because the previously selected login method was not accepted by the application.

New login

Request access

click on «request access»....
